OBJECTIVE

My objective is to actively engage in building, maintaining, and supporting critical software and services that enhance the "Deals" platforms, ensuring a best-in-class experience for users. I am committed to embodying the values of customer care, continuous collaboration, and improvement, believing that these principles are essential for achieving greatness as a team.

Here is my bullet point about me:

- Good data structure and algorithms. (Gold medal & Second Prize in the Excellent Student Competition in HCM City).
- I started working on a Software Engineer Internship when I was just 18.
- I am also a Programming Teacher for kids from 5 to 18 years old.
